5 Risk Factors

5.1 Specific Risks

The performance of the fund is dependent upon the investment policy as well as on the market development of the individual investments of the respective segment, and cannot be determined in advance. In this context it is important to note that the value of a unit relative to its issue price can rise or fall at any time. It cannot be guaranteed that the investor will receive back his invested capital.

AN INVESTMENT IN THE SHARES OF THE COMPANY IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK. ACCORDINGLY, PROSPECTIVE INVESTORS SHOULD CONSIDER THE FOLLOWING RISK FACTORS. THESE MAY NOT BE A COMPLETE LIST OF ALL RISK FACTORS ASSOCIATED WITH AN INVESTMENT IN THE COMPANY.

Generally, the Fund only uses derivative instruments for value hedging purposes (e.g. currency hedging).

In addition to the general risks, investments in the fund are subject to the following specific risks:

Focussed Investment

On account of the fact that the SafePort LOICK Bio-Products & Bio-Energy Fund makes the largest proportion of its investments only in the investment types, mentioned in 4.1., it is exposed to market and issuer risks with this type of investment which can have a negative impact on the net asset value of the Fund. Also the performance of the fund can therefore differ from the general performance of shares and capital markets.

Market and issuer risks

By virtue of the fact that SafePort LOICK Bio-Products & Bio-Energy Fund makes most of its investments only in investment types mentioned in figure 4.1 of the Offering Memorandum, the fund is exposed to the market and issuer risks that go with this type of investment, which may have a negative impact on the net asset value of the fund. Therefore, the performance of the fund may differ from the general performance of the share and capital markets.

Entrepreneurial risks

Depending on all functions as well as the selection, participation and management of the fund portfolio, the investment manager will take the necessary care to achieve the general objective of the fund. The investment manager assumes no liability and responsibility that selected investments increase, as expected, especially in the context of changing market or other framework conditions.

Investments in shares represent a direct participation in the economic success or failure of a company. In extreme cases - in the event of bankruptcy - this can mean the complete loss in value of the corresponding investments.

Portfolio risk

The investments are individual projects which are subject to the typical risks, singular or in its entirety of an investment.

Liquidity risk

The fund invests its assets primarily in private equity companies and/or in private debt that are not listed on the stock markets. In the event of requests for the redemption of a very large volume of fund shares, it may be necessary to sell private equity companies. The amount of time required for this cannot be clearly defined. In such a case, the shares would be redeemed in several instalments.

The fund endeavours to avoid the sale of stable and profitable private equity companies if possible. As a stop-gap measure to service more substantial redemptions, the fund may request investment loans from institutional investors or a collateral loan from the depositary bank.

Concentration risk

The investments in the fund may be limited to a small number of similar securities. If there is a concentration of investments in specific markets, sectors, regions/countries or investment classes/themes, the fund is particularly dependent on the development of these focused investments or high-focus categories, including political influences.

In the case of a focused investment, the risk diversification ("diversification effect") that is typical of funds may not apply, and the performance of the subfund may differ significantly from the general performance of the underlying markets.

BEFORE DETERMINING TO INVEST IN THE COMPANY, PROSPECTIVE INVESTORS SHOULD EVALUATE WHETHER THEY ACCEPT THE AFORESAID RISKS WHICH THEY WILL ASSUME BY BUYING SHARES OF THE COMPANY. THE FOREGOING LIST OF RISK FACTORS DOES NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS INVOLVED IN THIS OFFERING. PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE OFFERING MEMORANDUM AND FULLY EVALUATE ALL OTHER INFORMATION THAT THEY DEEM TO BE NECESSARY BEFORE DETERMINING TO INVEST IN THE COMPANY.

5.2 General risks

In addition to the specific risks, investments in the Fund can be subject to general risks.

All investments in investment companies are associated with risks. These risks can include or be related to share and bond market risks, exchange rate, interest, credit and volatility risks as well as political risks. Every one of these risks can also arise in conjunction with other risks. Some of these risks are described in this section. You should nevertheless be aware that this is not a conclusive list of all possible risks.

Potential investors should be aware of the risks relating to investment in shares and only make a decision to invest when they have been comprehensively advised by their legal, tax and financial advisors, auditors or other experts of the suitability of an investment in shares in this fund, taking into account their personal finance and tax situation and other circumstances, as well as information contained in this Offering Memorandum and the investment policy of the fund.

Counterparty risk

The risk is represented by the fact that the performances of transactions, which are concluded on account of the segment's assets, are endangered by solvency problems or insolvency on the part of the corresponding counterparty.

The settlement of the transactions may not be delivery vs. payment.

Monetary value risk

Inflation can reduce the value of investments in the segment's assets. The purchasing power of the invested capital falls when the inflation rate is higher than the proceeds yielded by the investments.

Economic cycle risk

This is a question of the danger of exchange losses, caused by the fact that, when making the investment decision, no account or insufficient account was taken of cyclical trends, leading to investments in securities being made at the wrong time, or securities being retained during an unfavourable economic phase.

Country risk

Investments in countries where the political situation is unstable are subject to particular risks. These may lead to extremely rapid and significant fluctuations in rates. These risks include, for example, currency restrictions, transfer risks, moratoria or embargos.

Market risk (Foreign exchange risk)

This is a general risk associated with all investments, which consists of the value of a certain investment potentially changing counter to the interests of the segment.

Psychological market risk

Moods, opinions and rumours can cause significant declines in market prices, although the profit situation and the future prospects for the company, in which an investment has been made, may not have undergone a sustained change. A psychological market risk has a particular effect on shares.

Settlement risk

This is a question of a risk of loss for the segment, caused by a concluded transaction not being completed as anticipated, because counterparty has not paid or delivered, or a loss occurring because of mistakes in operations when handling a transaction.

Tax risk

Buying, holding or selling investments in the segment may be subject to the provisions of tax legislation (e.g. tax deducted at source) outside the country of domicile of the fund.

Business risk

Investments in shares represent a direct involvement in the economic success or failure of a company. In extreme cases – in the event of insolvency - this can mean the complete loss of the corresponding investments.

Currency risk

Should the segment contain assets, which are expressed in a foreign currency, investments are exposed to a direct currency risk (where foreign currency positions are not secured). Falling exchange rates lead to a reduction in the value of foreign currency investments. In the opposite case, the currency market also offers opportunities for profits. In addition to direct as well as indirect currency risks, international companies are more or less greatly dependent on changes in exchange rates, which can also have an indirect effect on the price performance of investments.

Interest rate risk

Where the segment invests in interest-bearing securities, investments are exposed to an interest rate risk. Should the market rate raise, the market value of the interest-bearing securities forming part of the segment's assets may fall significantly. This applies all the more where the segment's assets also contain interest-bearing securities with longer remaining terms and lower nominal interest.

5.3 Value of Investment

The value of investments in the Fund can fall as well as rise resulting in an adverse effect on the value of the Investor Shares.

5.4 Duration of Investment

Investments in the markets may experience periods of draw down or loss. For this reason investors should plan to commit funds for at least five years, although this is not an obligation.

5.4 Income

As described above, the Directors do not intend to declare dividends on the Investor Shares. An investor who wants to get liquidity is obliged to make a redemption of investment parts.

5.6 Past Performance

Past performance of the Investment Manager or the Fund is not necessarily indicative of future results attributable to the Investor Shares.

5.7 Volatile Markets

Price movements in the markets in which the Fund will invest can be volatile and are influenced by, among other things: changing supply and demand relationships; government trade and fiscal policies; national and international political and economic events and changes in exchange rates and interest rates.

5.8 Leverage

The Fund may leverage its assets through borrowing as stated in section 4. This may cause a certain fluctuation of the Fund's NAV.

5.9 Illiquid Markets

In some circumstances, the markets in which the Fund will invest can become illiquid, making it difficult to acquire or dispose of assets at the prices at normal market offers.

5.10 Tax and Regulatory Change

The tax consequences to the Company and Shareholders in the Company, the ability of the Company as a foreign investor to invest in certain markets, ability of the Company to repatriate its assets, including any income and profit earned on those assets, and other operations of the Company are based on existing regulations, which are subject to change through legislative, judicial or administrative action in the various jurisdictions in which the Company may operate or invest. It is recommended that an investor seek advice from his tax adviser before making an investment in the Company as to the potential tax consequences of such an investment.

5.11 Effect of Substantial Redemptions

Substantial redemptions of Investor Shares could require the Fund to liquidate investments/positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Investor Shares. Substantial redemptions might also cause the liquidation of the Fund.

5.12 Limited Ability to Redeem

Although Shareholders may generally require the Company to redeem any or all of their Investor Shares on any Redemption Day at the prevailing Redemption Price, restrictions apply in certain circumstances (see Section 13).

5.13 Cross Liability

The Articles of Incorporation of the Company empowers the Directors to amend the By-Laws so as to create different classes of Shares from time to time. The Directors will ensure that the trading results of the Fund will have no effect on the value of any other Fund and the trading results of any other Fund will have no effect on the value of this Fund.

5.14 Exchange Rate Fluctuations

Certain of the investments of the Fund may be in currencies other than Euro. Accordingly, adverse exchange rate fluctuations may cause the value of the investments of the Fund to diminish.

5.15 Trading Costs

All trading costs will be borne by the fund.

5.16 Broker

The Company will rank as one of the Broker's unsecured creditors in relation to assets which the Broker borrows, lends, pledges or hypothecates and, in the event of the insolvency of the Broker, the Company might not be able to recover equivalent assets in full. In addition, the Company's cash held with the Broker will not be segregated from its own cash and will be used by the Broker in the course of its investment business, and the Company will therefore rank as an unsecured creditor in relation thereto.

6 Fees, Compensation and Expenses

The Fund will be responsible for its various administrative and operational expenses.

6.1 Subscription Fee

To cover the costs caused by the placement of the units, the Company may charge a subscription fee on the net asset value of the newly issued units in favour of the Company, the Custodian Bank and/or the marketing agents in this or other countries as stated in Section "Useful Information".

6.2 Redemption fee

For the payment of redeemed units, the Company can charge a redemption fee on the net asset value of the redeemed units in favour of the Company, the Custodian Bank and/or the marketing agents in this or other countries as stated in Section "Useful Information".

When paying the liquidation balance, in the event that the fund is dissolved, the administrator can charge a redemption fee pursuant to Section "Useful Information".

6.3 Transfer Agent Fee

No transfer agent fee is charged at the direct level of the investor. The Fund will pay an annual administration fee for the transfer agent, payable quarterly in arrears pro rata temporis, in the amount of 0.065% of the average value of the Fund.

Further on the Administrator charges any mailing or emailing costs of statements and account statements, payable by the Fund.

6.4 Fund Fees

The Fund will pay an annual management/distribution fee, payable quarterly in arrears pro rata temporis, in the amount of max. 1,8 % of the average value of the Fund. The Fund will pay an annual administration fee, payable quarterly in arrears pro rata temporis, in the amount of 0.25% of the average value of the Fund, subject to a minimum of CHF 25'000 per annum.

6.5 Performance Fees

The Fund will pay a performance fee of 10% p.a.

6.6 Custodian and Brokerage Fees

The Fund will be liable to pay an annual fee, payable quarterly in arrears, not to exceed 0.15% of the average value of the Fund per annum, plus all third party custodian costs.

6.7 Trading Fees

All trading fees, such as brokerage fees, stock exchange fees, taxes, etc., shall be paid by the Fund.

6.8 Directors Fees and Expenses

The Directors may charge a director's fee of yearly EUR 4'000 as far as the total net asset value will exceed EUR 10'000'000.

6.9 Operating Expenses

The Fund will also reimburse the fund parties, including but not limited to the Investment Manager and Administrator, for any travel, accommodation or other properly incurred and documented out-of-pocket expenses incurred in carrying out their duties for the fund.

In addition to the fees and expenses referred to above, the Fund will be liable to pay any operating expenses incurred by the Company in respect of the Fund, including legal, auditing, registration, company secretarial, licensing, governmental filing fees and printing costs.

6.10 Organisation and Offering Expenses

The expenses incurred by the Company in connection with the organisation of the Company and as attributable to the Fund and initial and on-going offerings of Investor Shares, which, at the date of this Memorandum, are estimated not to exceed EUR 50'000.- will be reimbursed by the Fund. These expenses may be amortised over a period of max. sixty (60) months, or such shorter period as the Directors may determine, so long as the Fund remains operating. Offering expenses incurred in any subsequent offerings of the Investor Shares will be paid by the Fund.

6.11 Regular and Extraordinary Expenses

The Directors and the Administrator are also entitled to the reimbursement of the following outlays that have resulted for them from the exercise of their function:

The marketing agents are free to extend this phase;

All initial and continuous expenses of the Company which are attributable to a specific Sub-Fund shall be borne by that Sub-Fund.

All expenses of the Company not directly attributable to a specific Sub-Fund will be allocated to all Sub-Funds pro rata based on the net asset value of each Fund.

6.13 Earnings from refunds of the target funds

The fund aims to receive refunds of the management fees of the target funds in favour of the assets of the fund.

6.14 Ensuring of the concerns of the investors

Neither the directors of the company nor the investment managers or the marketing and distribution agents are allowed to receive provisions for the distribution of target funds. Referring to this every provision has to accrue to the assets of the fund.

7 Net Asset Value

The By-Laws of the Company provide for the valuation of the Investor Shares of the Fund by reference to the NAV of the Fund. The NAV of the Fund and the NAV per Investor Share will be determined on the Calculation Day by the Administrator, on the basis of the prevailing prices at the close of business of the markets on the Valuation Day.

The NAV shall be determined by or at the direction of the Directors or by the Administrator and made available at its Registered Office or such other office as the Directors may determine.

The Calculation Day shall be the first business day of the Administrator following the Valuation Day.

The Valuation Day shall be weekly, on Thursday.

In the case, that the main markets in which the fund trades are closed on this day, the Valuation Day shall be the day before. If any clarification is necessary to approve the valuation of an investment of the Fund, the publication of the NAV may be delayed up to max. the last business day of the following month.

Due to the accumulation of bank holidays between 22nd December and 7th January each year there can be a distortion of the valuation prices of the target investments of the fund. This could be based on missing liquidity (low trade volumes) and different business hours of the international stock exchanges. This leads to difficulties in assessing if sufficient price quality exists and therefore transactions within the share register of the fund can be carried out fairly. Another difficulty lays in the comprehensible communication of the deadline for share register transactions as the relevant NAV (net asset value) could occur several days later with the result that the issue or redemption of shares/units will be delayed.

For funds with daily or weekly valuation intervals the administrator has the option to amend the rules in regard to issue and redemption of shares as well as the calculation of the NAV differing from the usual valuation days between the 22nd December and 7th January each year. The administrator can resolve the postponement or cancellation of the single valuation days. Furthermore the administrator can resolve that orders can be accepted for the NAV as of 31st December.

The administrator will inform the investors about the amended modalities of orders and valuations of the NAV in the official publication platform of the fund or by direct information not later than 30th November each year.

7.1 Determination of the NAV of the Fund

The assets shall be valued as follows:

- a) According to the generally applicable valuation principles determined by the directors of the company, the assets (e.g. managed accounts held with a broker) can be booked based on their aggregated profit and loss statements. The Administrator is not obliged to book each single trade.
- b) Securities, which are traded on official exchanges or traded on other regulated markets, are valued at the closing price on the valuation day on the principal market on which such securities are traded.
- c) Collective investments: The basis for the valuation of the investment positions is the most recently available net asset value of the respective investment position before the respective valuation date.
- d) The liquid assets will be valued on the basis of their nominal value plus accrued interest.
- e) Assets that are denoted in a currency other than the fund's reference currency will be converted using the closing exchange rate of that currency.
- f) Valuation of non-listed companies
 - 1) Loick AG, domiciled in 46286 Dorsten, Germany
 - 2) SafePort Loick Finanz AG, domiciled in 9495 Triesen, Liechtenstein
 - 3) SafePort Bioenergie Beteiligungs GmbH, domiciled in 46286 Dorsten, Germany and their holdings (bioenergy companies).

1. Loick AG

Loick AG is an owner-managed company, where Mr Hubert Loick began developing industrial bioproducts in 1994. The intention was to replace the corresponding crude oil-based plastic products with CO₂-neutral products.

In 2013, as an investment and cooperation partner, Loick AG affiliated itself with the newly-created investment fund SafePort Loick Bio-Products & Bio-Energy Fund, establishing both an investment relationship and a business partnership. The fund holds a stake amounting to 33.33% of Loick AG's share capital.

Since the start of its history as an owner-managed company, Loick AG has consistently endeavoured to form substantial hidden assets and has financed its investments as far as possible with funds that it has generated itself. Hence, in the declarations of value in the commercial balance sheet, there are considerable hidden assets in comparison with the market value (real market value).

The fund endeavours to use a valuation basis that reflects the actual market value (real market value). The fund's objective is to produce an economically justifiable valuation of Loick AG. Responsibility for producing the valuation lies with the directors of the fund.

To carry out this task, Loick AG's hidden assets, technical developments and business prospects are also taken into consideration, in addition to its commercial balance sheet. In the event of capital increases at Loick AG, the issue price of the new shares is a determining factor in the valuation of Loick AG. The fund regards the holding in Loick AG as a stable and relatively long-term investment. Loick AG has appointed a delegate from the fund to Loick AG's supervisory board (unpaid). This ensures that the fund has an appropriate co-determining role and an insight into Loick AG's corporate policy.

The sale of Loick AG shares would be considered only if the basic economic or financial foundations of Loick AG or of the fund were to change significantly.

2. SafePort Loick Finanz AG

The fund is the 90% owner of a holding company, SafePort Loick Finanz AG, which is based in Triesen (Liechtenstein). This company is financed primarily by loans from the fund.

In turn, it is the 100% owner of a subholding in Germany, SafePort Bioenergie Beteiligungs GmbH, based in Dorsten (Germany). This subholding has the tasks of acquiring bioenergy production companies (subsidiaries), monitoring the management tasks of its holdings and subsidiaries, financing their capital base, and obtaining long-term financing of debt capital for them from German credit institutions on favourable conditions. The production companies acquired and operated by the subholding are usually financed by long-term bank loans, which represent 40 to 80% of the total investment volume.

SafePort Loick Finanz AG grants investment loans to the subsidiaries of the subholding company (SafePort Bioenergie Beteiligungs GmbH).

Hence, most of SafePort Loick Finanz AG's income is derived from fixed interest yields that it receives from the above-mentioned production companies (subsidiaries of the subholding). Profits payable to it by its subholding in the form of dividends are assigned to it on the basis of dividend payment resolutions in the course of the relevant following financial year. SafePort Loick Finanz AG Triesen is valued by the fund at the net asset value. The freely available profits are forwarded to the fund in the form of dividends at the discretion of the general meeting of shareholders and in line with the latter's right of participation.

3. SafePort Bioenergie Beteiligungs GmbH

SafePort Bioenergie Beteiligungs GmbH is valued by SafePort Loick Finanz AG at the nominal value of the share capital and with accounts receivable (loan amounts + interest claims) included.

The subholding (SafePort Bioenergie Beteiligungs GmbH) is jointly managed by delegates from Loick AG and delegates from the fund. The fund's delegates on the holding's supervisory board and in the subholding company do not charge a fee for their management work; instead, they are compensated in a fully transparent way through the fees indicated in the Offering Memorandum.

Capitalising hidden assets in the fund

To ensure that current fund investors are not placed at a disadvantage in comparison with later fund investors, the directorate of the fund endeavours to take into consideration the formation of hidden assets for the purposes of considering the market value in its own accounting (= basis of a realistic valuation), on the basis of the principle of equal treatment. Therefore, pursuant to these deliberations, the directorate of the fund is obliged to analyse the hidden assets that are demonstrably formed in the subsidiaries of SafePort Bioenergie Beteiligungs GmbH, and to take these assets into appropriate consideration when valuing the fund's assets.

Hidden assets are formed by restructuring measures implemented after acquisition, as well as by write-downs that are permitted by commercial law. The analysis and calculation of hidden assets are verified by valuation reports by state-accredited appraisers, as well as by valuations produced by the directorate of the fund itself in collaboration with the management of the subholding company in Germany.

7.2 Temporary Suspension

The determination of the NAV per Investor Share may be suspended for any reason outlined in Section 13. No Investor Share may be issued or redeemed during a period of suspension.

In the event of a suspension of the determination of NAV per Investor Share, a Subscriber/Shareholder may withdraw his request for purchase or redemption of Investor Shares, provided such a withdrawal notice is actually received before the termination of the period of suspension. Where the request is not so withdrawn, the purchase or redemption of the Investor Shares will be made on the next Subscription/Redemption Day following the end of the suspension.

8 Taxation

Under current legislation in Saint Vincent, the Company and its Shareholders who are not resident or deemed a resident of St. Vincent and the Grenadines and who, during the relevant taxable year, has not engaged in a trade or business in St. Vincent and the Grenadines, either personally or through a representative or agent in St. Vincent and the Grenadines, are exempted from all Saint Vincent income tax (including income tax on dividends (if any)), withholding tax, capital gains taxes, capital transfer taxes, estate duties or inheritance duties).

The Company and its Directors can in no way be held responsible for the personal tax liabilities of any Shareholder as a consequence of applying for Investor Shares or investing in the Investor Shares.

The Fund may be liable to certain taxes where it carries out its investment and trading activities. Furthermore, the amounts and effect of withholding and other taxes on the Fund will depend on the types of investments made by it and the laws and regulations of countries where investments are made.

Shareholders

Shareholders may be subject to taxation in a variety of jurisdictions. Apart from the information provided below with respect to Saint Vincent and the Grenadines, this Offering Memorandum does not contain any statements, representations or warranties regarding the taxation of Shareholders. Shareholders should consult their own advisors with respect to any taxes applicable to the acquisition, holding or disposition of Preferred Shares and the effect, if any, of withholding or other taxes imposed on interest income received by the Company or gains realized by the Company under the laws of the countries of their respective citizenship, residence and/or domicile.

Under current Saint Vincent and the Grenadines laws, decisions and regulations, Shareholders (other than those who are citizens or residents of Saint Vincent and the Grenadines) will not be liable to Saint Vincent and the Grenadines taxation on income, capital gains or capital transfer except in respect of income derived from sources situated within Saint Vincent and the Grenadines.

Please note:

Applications to subscribe for Investor Shares must be received by the Administrator no later than on the Valuation Day of each week (Thursday). If an application to subscribe is received less than the Valuation Day of the week prior to the relevant Subscription Day, the subscription will be made on the Subscription Day subsequent to the relevant Subscription Day; however the Company may, if conditions allow, accept a shorter notice period for any application.

Subscription amounts must be received by the Bank no later than on the Valuation Day (Thursday) and, thereafter, no later than on the relevant Subscription Day (Thursday).

10.5.1 Subscription and Application Procedures

Subscription of units is possible at valuation date at net asset value per unit. Settlement of orders is facilitated at NAV of units calculated on the valuation date plus the subscription fee and any taxes and duties incurred. The respective maximum subscription fee is specified in Sector "Useful Information".

All taxes due through the issue of units will likewise be invoiced to the investor. If units are acquired through banks not entrusted with the marketing of the units, these banks may make additional charges for such transactions.

The Custodian, the Company and/or Marketing Agents have the right to refuse subscription applications at their absolute discretion.

If payment is made in a currency other than the currency of account, the counter value from the conversion of the currency of account, less charge, is applied for the acquisition of units.

The Company may also take the decision concerning the complete or temporary suspension of the issue of units if new investments could have a negative effect on the attainment of the investment objective.

The custodian bank and/or the Company may at any time independently redeem units, if these are held by investors, who are not entitled to the acquisition or to the possession of these units.

In order to subscribe Investor Shares in the fund a prospective investor must:

10.7 Subscriptions in Specie

The Directors may recommend that the Company also issue Investor Shares for a price to be satisfied partly by the transfer of Investments (shares etc.) and/or partly for cash. It is at the sole discretion of the Directors as to whether or not the particular Investments and/or cash which may be transferred to the Company shall be satisfactory for the price of the Investor Shares to be subscribed for. The cash component shall be a balancing amount to equalise any difference between the value of the Investments and the NAV per Investor Share for which the subscription is being made, plus an allowance for any fees or charges payable by the Company in respect of the transfer and registration of the Investments as part-payment for the subscription.

11 Redemptions

A Shareholder may cause any or all of his Investor Shares to be redeemed on any Redemption Day by the Company.

11.1 Redemption Price

Investor Shares will be redeemed at the prevailing Redemption Price which will be the NAV per Investor Share on the relevant Redemption Day, less any applicable Redemption Fees or expenses owed.

In the event the Company has suspended or postponed the NAV per Investor Share, the Redemption Price on the Redemption Day occurring after receipt of the order will be utilised.

11.2 Redemption Day

Weekly, on Thursday. In the case that the main markets are closed on this day, the foregoing Business Day.

11.3 Redemption Requests

Units are redeemed weekly at valuation date (Thursday) at net asset value per unit. The settlement takes place to the NAV less possible redemption fee and any taxes.

Redemption orders must be received by the Custodian before the deadline. If an order is received by the Custodian after the deadline it will be recorded for the next valuation date. Should the execution of a redemption order lead to the holdings of the given investor falling below a minimum investment, the Company may without further notifying the investor treat this redemption order as an order to redeem all the units of the Fund held by the said investor.

In the event of a large volume of redemption applications, the administrator may decide to settle a redemption application only when, without an unreasonable delay, corresponding assets of the Fund can be sold. This can take (e.g. due to the sale of the investments on auctions) several months up, so that the settlement of redemptions can take place over up to twelve months later. If such action is necessary, all the redemption applications received on the same day will be settled at the same price.

If, instead of at the absolute discretion of the Custodian Bank, the payment is to be made at the demand of the investor in a currency other than the currency in which the units in question were launched, the sum to be paid is calculated from the proceeds of the conversion of the currency of the account into the payment currency.

After the payment of the redemption price, the unit in question is invalid.

Requests for the redemption of Investor Shares must be made in accordance with the Redemption Request Form which accompanies this Offering Memorandum (see Appendix B).

The Company and the Transfer Agent are entitled to require additional documents, such as, but not limited to, trust instruments, death certificates, appointments as executor or administrator and certificates of corporate authority prior to making any payment in respect of redemptions.

Requests for redemption of Investor Shares must be received by the Administrator no later than on the relevant Redemption Day. If a Redemption Request is received less on to the relevant Redemption Day, the Investor Shares will be redeemed on the Redemption Day subsequent to the relevant Redemption Day; however the Company may, if conditions allow, accept a shorter notice period for any redemptions.

Investor Shares will be redeemed with effect from the relevant Redemption Day. Upon final calculation of the Net Asset Value per Investor Share, written confirmation will be sent to investors within five (5) Business Days of the number and value of Investor Shares redeemed.

11.4 Redemption Restrictions

No special restrictions.

11.6 Payment of Redemptions

Normally the Company will arrange for payment to the shareholder the net proceeds within ten (10) Business Days after the Redemption Day. Payment on redemption may be delayed in the case of extraordinary circumstances, such as the inability to liquidate existing positions, or the default or delay in payments due to the Company from banks or other persons.

Payment will be made by telegraphic transfer (with charges for the account of the recipient), or by cheque or bank draft, in accordance with the instructions of the Shareholder given in the Redemption Request. Requests for redemption in the proper form will be honoured and the Fund's positions in the Markets will be liquidated to the extent necessary (if any) to discharge its liability on the Redemption Day.

11.7 Redemption in Specie

The Company may also redeem Investor Shares, if recommended to do so by the Directors at their sole discretion, by way of transferring investments (shares etc.) and or cash. The cash component shall be a balancing amount to equalise any difference between the value of the investments and the Redemption Price per Investor Share for which the redemption is being made, plus an allowance for any fees or charges payable by the Company in respect of the transfer and registration of the investments as part-payment for the redemption.

No redemption will be made until the Shareholder has completed and delivered a Redemption Notice in the form set out at Appendix B and satisfied all the requirements of the Directors as to such a redemption request.

11.8 Compulsory Redemptions

The Directors can affect a compulsory redemption of Investor Shares at its absolute discretion. In the event that Investor Shares are redeemed by way of a compulsory redemption, those shares shall be redeemed at the normal Redemption Price. The Directors, at their discretion, may waive any applicable Redemption Fees.

In the case where the compulsory redemption is made due to a breach by the shareholder of the terms of this Memorandum, which causes the fund to not be in compliance with the limitations and restrictions on the ownership of Investor Shares set forth in this Memorandum, a further Redemption Fee of 1 % may be applied by the Directors.

12 Transfers of Investor Shares

Requests for the transfer or assignment of Investor Shares must be made in writing. Transfers or assignments of the Investor Shares may not be made without the prior approval of the Board, which approval will not be unreasonably withheld (See Section 12.1). Any attempted transfer or assignment without such approval will be void and without effect. A Shareholder desiring to transfer his Investor Shares must make available to the Administrator such information as the Board may require, including information necessary to satisfy the Board that the proposed transfer complies with applicable laws. In addition, the proposed transferee must agree to take such Investor Shares subject to the same conditions, warranties and restrictions pursuant to which the Investor Shares were held by the transferor.

12.1 Refusal to Approve Transfer of Investor Shares

If, within thirty (30) days of receipt by the Administrator of an acceptable instrument of transfer, the Board does not deny permission for the transfer, the Board shall be deemed to have approved the transfer. However, the Board may only refuse to approve the proposed transfer of any Investor Share if the manner, form or evidence of transfer is unacceptable, if the transfer might violate applicable laws or when such transfer is deemed by the Board in its absolute discretion to be contrary to the best interests of the Company by virtue of resulting in legal, pecuniary, regulatory, taxation or administrative disadvantage to the Company.

- c) when any breakdown occurs in the means of communication or computation normally employed in determining the price or value of any of the assets owned by the Company for the Fund or the current price or values on any exchange in respect of the assets owned by the Company for the Fund or when, for any other reason, the prices or values of any such assets cannot reasonably be promptly and accurately ascertained;
- d) when the Company is unable to repatriate monies for the purposes of making payments on the redemption of the Investor Shares or during which any transfer of monies involved in the realisation or acquisition of investments or payments due on redemption of Investor Shares cannot in the opinion of the Directors be effected at normal rates of exchange;

- e) when a notice has been published convening a meeting of Members for the purpose of resolving a winding up of the Company; or
- f) during which, in the opinion of the Directors, redemptions would seriously impair the Company's ability to operate or to jeopardise its tax status.

In the event of a suspension as described above, the Administrator shall immediately notify the Registrar of Mutual Funds in St. Vincent and the Grenadines that dealing in the Investor Shares ceased or is suspended. Furthermore, notice that dealing is suspended shall be given in written form to the relevant subscribers and shareholders advising them of the suspension and that they may withdraw their applications for subscription and/or redemption by giving written notice to the company provided that the notice is received before the end of the suspension period.
